

A CELL TOWER'S GOING UP NEXT DOOR OR HADN'T YOU HEARD?

Right now, government officials have to publish their intentions in the newspaper. That includes where they intend to build facilities you don't want down the block.

In addition, Ohio newspapers upload thousands of public notices to a popular website, **PublicNoticesOhio.com**, at no additional charge.

This will change if some politicians get their way.

They want to put more and more public notices exclusively on government-run websites where few citizens would know to look.

Don't let government keep you in the dark – help shine the light.

What can you do?

Go to **OhioNews.org** to get the facts about why public notices belong in newspapers where citizens want and expect them. Download a pamphlet to share with your local elected officials.
